

Science Lunch Time Tutoring

Are you having trouble understanding science concepts?

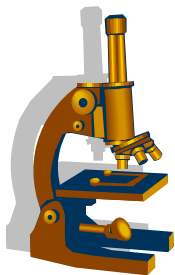

Are you missing assignments in your science class?

Do you need to make up labs from when you were absent?

Do you just love science so much that one hour a day is not enough for you?

If any of these questions apply to you then lunchtime science tutoring may be the place for you!

Offered every Wednesday during A-B-C lunch in Room 205 (Mrs. Bednard's Room)

Tutoring rules:

1. Obtain a pass from your science teacher. Bring a lunch or use the pass to allow you to get lunch from the cafeteria immediately. Then use it as a hall pass back to Room 205.
2. You must sign in AND sign out of tutoring. You must wear your ID.
3. You must bring your science assignment and materials to work on.
4. You will be dismissed if you do not act appropriately and work on science. No warnings will be given. This is homework recovery time and not a social hour.
