<b>Date</b>	<b>Class Name / Session</b>	<b>Description</b>	<b>Time</b>	<b>Cost</b>
6/19-6/20	3D Design with Tinkercad	Design, create your own toys, jewelry or models with Tinkercad an easy, free 3D design program for all.	9:00-2:30	\$90
6/19-6/20	App Inventor	MIT App Inventor is a blocks-based programming tool that allows everyone, even novices, to start programming and build fully functional apps for Android devices.	9:00-2:30	\$90
6/19-6/20	Intro to Computer Coding & Robotics ( <i>NEW Session</i> )	Students will create programs to solve problems and develop interactive games or stories they can share. Students will be able to program robots designed to inspire curiosity, creativity, and invention through connected play and coding. Students can easily learn programming and share their creations.	9:00-2:30	\$90
6/21-6/22	Game Design with Gamestar Mechanic	This session will teach students how to use Gamestar Mechanic to learn how games work. Play some amazing games, then figure out what makes it fun and entertaining. Come join us as we learn the design components of games and what makes people want to play them.	9:00-2:30	\$90
6/21-6/22	Maker's Camp ( <i>NEW Session</i> )	Maker's Camp is two days of intensive, hands-on exploration and creativity. Program robots like Dash, Ozobot, and Sphero. Create your own electronics with littleBits. Draw and print using a 3D printer. Design your own video game with Bloxels. Create a green screen movie! Bring your creativity and a strong desire to play and explore!	9:00-2:30	\$90
6/21-6/22	Clay Animation	Learn how to plan your movie, create clay characters, and make a digital movie. You will be using a digital camera, clay, and software to create an animated movie. <i>Campers can bring their own iOS devices with the Stop Motion Studio app if they prefer to use their own device.</i>	9:00-2:30	\$90
6/26-6/27	3D Design with Tinkercad	Design, create your own toys, jewelry or models with Tinkercad an easy, free 3D design program for all.	9:00-2:30	\$90
6/26-6/27	App Inventor	MIT App Inventor is a blocks-based programming tool that allows everyone, even novices, to start programming and build fully functional apps for Android devices.	9:00-2:30	\$90
6/26-6/27	Minifig Stop Motion Animation	Everything <u>is</u> awesome when you're making your own movies using Lego Minifigs. You'll have a chance to produce, write, direct, and even star in your own minifig mini movie.	9:00-2:30	\$90
6/26-6/27	Digital Media Production	We will go through all of the steps to making your own movie using iPads and the iMovie app. From storyboarding ideas, shooting video, using a green screen, to editing it all together and adding a soundtrack. <u>Note:</u> <i>Campers can bring their own iOS device with the iMovie app if they would prefer to use their own device.</i>	9:00-2:30	\$90
6/28-6/29	Game Design with Gamestar Mechanic	This session will teach students how to use Gamestar Mechanic to learn how games work. Play some amazing games, then figure out what makes it fun and entertaining. Come join us as we learn the design components of games and what makes people want to play them.	9:00-2:30	\$90
